---

I think so. There might be some sig nex stuff I can help out on, but I think the WTS is the main issue.

This is basically about how big the WTS at this site is, right? If that's right, then yes, I'll send along to Alexis.

I think this is mostly a waste treatment exclusion issue, so should it go to Alexis?

ex. b5 - deliberative

Hi Karyn,

I think we have met before, but just in case – I'm an ORISE on Donna's JD team and act as our region 8 liaison.

A little background first:

We have a JD that's been floating around for a while regarding Climax Mine, located in CO, which has been inactive for a few years and is now seeking to expand and resume operation. The Corps is handling the JD with a site visit scheduled for next week, and has been closely collaborating with us and the region (Erin Perkins is familiar with the case), doing a great job at keeping us in the loop.

[REDACTED]

[REDACTED]

Just in case you are willing to go over it – I've attached it to this email. Let me know if you would like a copy of the maps to get a general idea of the area in question.

Thanks,  
Hadas
